Konya 2023 is the third building renewal project the Travel Front plans and operates. The project will run for 15 years from 2008 through 2023. Many different specialists in many diversified fields will congregate in the 17 rooms of this building (built in 1965). Based on the concept of a "future multi-purpose building", a diverse range of people transcending industries, age, nationality, and ethnicity will gather here for a variety of purpose, reason, and time. This is a project where a process of trial and error is repeated through various elements meeting and dispersing for the purpose of distilling new values and culture.
